

Dear KHS Alumni Foundation:

Thank you for funding the trip fare to the Space Camp in Alabama. The trip for me has been wonderful and exciting. I was able to see what a real space station looks like, as well as participate in simulated ~~orbit~~ orbit missions. I also learned a lot of useful information in a fun way, either through games, such as Space Bowl (a space category Jeopardy), Activities, such as building "space toys" or missions, and lectures about the history of space flight and the orbiters. Most importantly, I got to see science used in an occupational field to do amazing things, and so I have been inspired to learn, particularly in science and math. Space Camp is, and forever will be, an irreplaceable and unforgettable memory. So again, thank you for everything, and I hope you continue to fund trips to space camp so others can experience the amazing engrossment of space technology.

With All due respect,

Mason Miyamoto
