

Ohana O Mele
2705 Kaimuki Avenue
Honolulu, Hawaii 96816

Dear Steven

Attached are the receipts for the Alesis HD24 recorder I purchased with the \$1,500 Foundation Award this year. This digital recorder allowed us to complete Ohana O Mele's CD project, "In The Spotlight". Please accept 5 copies of our CD as a way to say "Thank you" for your generosity.

The Alesis HD24 not only replaced two broken recorders with 8 channels each, but adds on another 8 channels giving us the ability to record 24 channels simultaneously. Editing on a digital recorder saved us so much time. You will be pleased to learn that several students were also able to learn to use this highly sophisticated piece of equipment. One student is so enthusiastic that he is considering a career in audio technology.

Once again, on behalf of Ohana O Mele, a great big, heartfelt "mahalo nui loa" for your support of our program and all of Kaimuki High Schools endeavors.

Sincerely,

Darryl Y. Loo, Director
